

February 27, 1976

coming through. This is a procedure that the Health Department was most interested in having and certainly if you know Rex Higley, as dedicated as he was in seeing that if we have doctors or people that are licensed that are not doing their job, there will be an opportunity to correct that and withdraw their license. If you have any other questions, if not, I think it is a good bill and it ought to be passed and I would move that LB 877 be advanced from General File to E & R as amended.

PRESIDENT: Any further discussion? The question is the advancement of the bill. Record your vote. Record.

CLERK: 29 ayes, 0 nays.

PRESIDENT: The bill is advanced. Now we go to LB 642, Senator Mills. Mr. Clerk. You did not want to take that education bill, Senator Lewis, did you? Oh, you did want to take it. Oh, I am sorry. LB 626.

SENATOR F. LEWIS: LB 626, I believe is a non-controversial bill. We will see.

CLERK: LB 626 introduced by the Education Committee and signed by the members thereof. Read title. There are no Committee amendments or other amendments pending.

SENATOR F. LEWIS: Now, let me disavow any authorship of the bill before we start. The bill came to our Committee at the request of the Educational Lands and Funds Board. The problem that they had was that they have certain parcels of ground that is not conducive for them in terms of location. They may have a road splitting some of the land. They may have an exchange they may want to make with somebody on the other side of the road. Someone might have some of the land landlocked. It is an opportunity for them to trade land of equal value. They requested, the Educational Lands and Funds Board requested of us for authority to do so only with the permission of the Governor. The second section is for the Educational Lands and Funds Board got a little small chunk down here that they want to sell the city of Lincoln, It is about a half a road wide. I would hope that it is non-controversial and I would hope that we could move it across.

PRESIDENT: Senator Burbach.

SENATOR BURBACH: Mr. President and members of the Legislature, Senator Lewis is correct. We had some of the staff research these bills, and as they indicated to me, these bills had no opposition in Committee hearing and they were advanced by the Committee unanimously without any objecting votes so this is the reason that these are on the list.

PRESIDENT: Senator Cavanaugh.

SENATOR CAVANAUGH: I would like to ask Senator Burbach, are they on the list in the order of their appearance on General File with no opposition in Committee?
